Microl TD LLC – Official Partner and Dealer of Weintek Products in Ukraine

Weintek – A Global Leader in HMI Manufacturing
Weintek Labs., Inc. is one of the most renowned manufacturers of Human Machine Interface (HMI) panels for industrial automation. The company's products are distinguished by:

- modern design;
- wide functionality;
- high performance;
- reliability in industrial environments.

Weintek HMIs support popular industrial protocols (including **Modbus, EtherNet/IP, OPC UA**), allowing easy integration into control systems of any complexity.

The Role of Microl TD LLC as an Official Partner

The status of an **official partner and dealer of Weintek** provides customers in Ukraine with several key advantages:

- **Guaranteed product authenticity** – supply directly from the manufacturer.
- **Official warranty** – for panels purchased from Microl LLC.
- **Technical support** – consultations, training, and assistance with HMI programming.
- **Stock availability** – prompt delivery of popular HMI models across Ukraine.
- **Integration into turnkey solutions** – ability to supply HMIs as part of complete industrial automation systems.

Weintek in Microl TD LLC Products

Microl TD LLC not only supplies Weintek panels but also actively uses them in its own developments, such as:

- technological process dispatching systems;
- automated street lighting control systems;
- milk pasteurization control complexes;
- gas transportation system telemetry.

Weintek HMIs in these solutions provide an intuitive interface, convenient data visualization, data archiving, and remote monitoring capabilities.

Weintek Product Range in Ukraine

Microl LLC supplies the full range of Weintek HMI panels:

- **cMTX Series** – panels with IIoT, OPC UA, MQTT, and remote access support.
- **iP Series** – reliable panels with excellent price-to-performance ratio.
- **cMT Series** – PLC controllers with CODESYS support, interface converters.
- **iR Series** – remote I/O modules, PLC I/O stations.
- Accessories and **EasyBuilder Pro** software.

Advantages of Working with Microl TD LLC

- Comprehensive supply of equipment and software.
- Professional consultation at the equipment selection stage.
- Assistance with implementation and HMI configuration.
- Support at all stages of operation.

Microl TD LLC, as an official Weintek partner in Ukraine, guarantees modern solutions, reliability, and complete technical support, ensuring effective HMI integration into any industrial process.
